

### III. Measures of Success

Success for the Partnership is defined as: *reducing food insecurity in north Pasadena*. Process and outcome evaluation metrics, through a shared measurement system, will be integral to measuring progress toward this definition. Specific process and outcome measures of Partnership success for each year of the project are described below:

**PROCESS EVALUATION:** Process evaluation metrics will be measured through project documentation and community surveys.

**Year 1:**

- › Construct and launch the Community-Supported Agriculture (CSA) campus
- › Launch the Produce Prescription Program (PRxP) and Food Scholarship Program

*Year 2 and Beyond:*

- › # of pounds of produce
- › # of shares and job training opportunities at the CSA
- › # of participating patients and students in the CSA, PRxP, Food Scholarship Program, and Brighter Bites
- › # of innovative healthy food retailers and free healthy food distributors through PRxP, Food Scholarship Program, Brighter Bites, Healthy Corner Stores, and Healthy Dining
- › # of nutrition literacy opportunities with Brighter Bites and PRxP
